SUMMARY

I'm a developer who loves learning and strives to understand the best effective way to complete any task. I work primarily in the Javascript ecosystem using tools such as the React library and Next.js framework. Within those, I have experience using Typescript to help maintain consistent code, while also using GraphQL to fetch data from an API. I've used both CSS pre-processors like SASS and CSS frameworks like Tailwind CSS, Bootstrap and Ant Design to help make responsive applications and sites. For backend use, I have used Node.js and MongoDB Atlas. Overall being able to code is important but knowing how to interact and connect with people is just as important. I always make sure to bring a positive and helpful work environment to all team members working alongside me, doing my absolute best to contribute to not only mine but the team's growth.

PROGRAMMING LANGUAGES & TOOLS

- HTML5
- CSS3
 - Flexbox
 - Grid
 - SASS
 - Tailwind CSS
 - Bootstrap
 - Ant Design
- JavaScript
 - Typescript
 - OOP
 - ES6 +
- React
 - Styled Components
 - Next.js
- Redux
- Git + Github
- Node.js
 - Express
 - Axios
- MongoDB Atlas
- GraphQL
- Apollo
- Firebase
- Terminal
 - ZSH
 - Bash

EXPERIENCE

WEB DEVELOPER

WEBENERTIA | FEB 2020 - FEB 2021

- I Worked on and helped deploy these sites:
 - [24]7.ai
 - CyberMDX
 - Rimini Street
 - Riverbed
- Communication with client, design team, project manager, and development team through Slack and Basecamp to execute projects to meet deadlines.
- Utilizing a CMS environment such as Drupal and WordPress.
- Problem solving to QA for a better user experience and debugging code for enhancing functionality, speed, and quality of sites.
- Implementing designs from Zeplin into code using HTML, CSS, and Javascript.

EDUCATION

BACHELOR OF SCIENCE, MAJOR IN CIS

DEVRY UNIVERSITY | 2016 - 2018

GPA: 3.8
